

# JMCS (GLASGOW) COVID 19 INFORMATION

Updated 19 July 2021

In these unprecedented and difficult times affecting people across the world, sport still has a role in maintaining our physical, mental and social wellbeing.

In view of this, the club has decided to restart limited organised activities in the form of day meets and camping meets, following Covid guidelines.

We will also be coordinating a series of informal evening rock climbing meets.

The club is endeavouring to comply with the guidelines issued by Mountaineering Scotland (MS) and the Scottish Government (SG).

Each club has the responsibility to appoint a Covid officer to act as the point of contact on all things related to Covid.

Douglas McKeith has been appointed Covid officer for our club.

## CLUB ACTIVITIES

As of Mon 19 July, Scotland is in Level 0.

### INFORMAL ACTIVITY

Up to 15 people from 15 households can meet outdoors informally in a level 0 area.

Please see [here](#) for “Club Covid Aware Principles”.

### JMCS ORGANISED ACTIVITY

This refers to activities which are undertaken in a structured and managed way following MS guidance and allow the club to have a meet with a larger group size.

In levels 0,1 and 2 areas we can hold meets of up to 50 people, although we would advise splitting into smaller groups of around 6-8 to ensure social distancing is possible.

For day meets, the meets secretary will endeavour to choose a venue with adequate parking, where the impact on the local community will be minimised.

Participants should only travel with members of their own household except in an emergency.

With regards to organised meets, we are required to collect contact details of participants for NHS Test and Protect measures. These will be retained for 21 days.

For this reason, we will require members to prebook their place on a day meet with the meet convenor in the same way as we would for our traditional weekend meets.

Please see [here](#) for other “Club Covid Aware Principles”.

## SPECIFIC GUIDANCE FOR CLIMBING OUTDOORS

(Taken from MS guidelines) Can be found [here](#).
